The Academy Edition by Jeremy Sherr

A landscape scene at sunset or sunrise. The sky is a mix of purple, pink, and blue. A large flock of birds is flying in a circular pattern in the upper left. In the foreground, there is a silhouette of a tree and a bench. Several white, curved lines sweep across the scene from the bottom left towards the right.

DEMO

...much more than just a repertory!

Repertorisation
Choose different Reps or search across all

Graphs
Powerful filters – multiple views

Materia Medica
Dynamic search for words in Materia Medica

Concepts
Comparing remedies / families

Elimination
Limit results to specific criteria

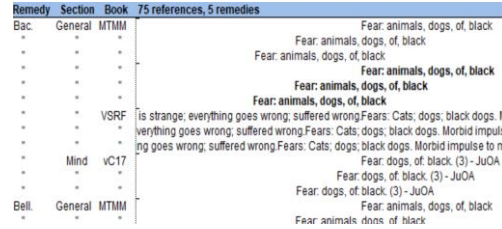

Central Repository
Store all information in a single location

...a rich and revolutionary search and analysis system!

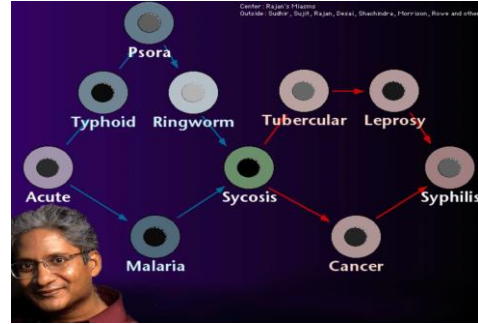

Dynamic Search

Flexible and powerful search facility across thousands of volumes

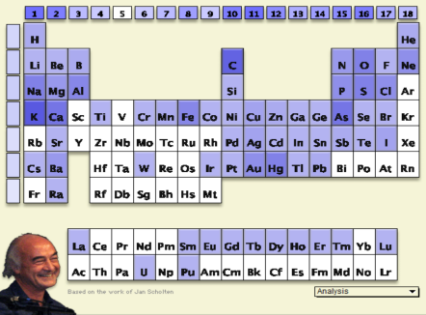

Dynamic Rubrics

Can't find the rubric, build your own!

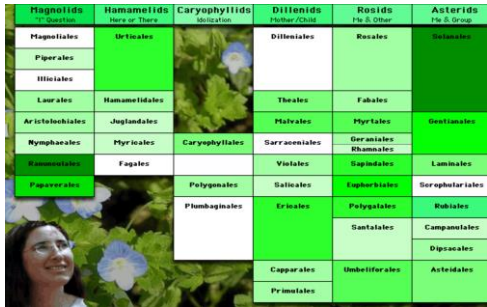

Miasms

Use miasm views to manipulate graphs

Mineral kingdom

Colour graded according to representation

Plants kingdom

Use plant tables (various) to manipulate graphs

Animal kingdom

Choose from multiple animal charts

* Note – these graphs / charts are also available in Mac Repertory

Minerals
The periodic table

Themes
The most important words associated with each row and column

Rows
The rows and their concepts

Columns
The columns and their concepts

Rajan's Plants I
Keywords for the families around Cann-I, Puls, Op, Camph, Anao, Bapf...

Rajan's Plants II
Keywords for the families around Stram, Arn, Cham, Bry, Cyt, Clo, Euphr...

Rajan's Plants III
Keywords for the families around Agar, ThuJ, Lil-I, Verat, Noc-v, Dros...

Animals
The major themes of each animal group

Miasms
The ten miasms from Rajan and his colleagues

Plants & Miasms
The plants and miasms crossed

Rajan Sankaran

Minerals
The theory that started a revolution in families

Themes
Displays the most important words associated with each stage and series

Spiral
The elements in a spiral with stages of development

Pyramid
The elements mapped on a pyramid

Series
The essence of each series of the periodic table

Stages
The essence of each stage of the periodic table

APG I
Family relationships by genetic research (Angiosperm Phylogeny Group)

APG II
Another view of the DNA research

Tree
The plant kingdom as a tree

Times
Remedies based on their associated times

Times II
Another view of remedies and their times

Colors
Remedies and their associated colors

Jan Scholten

Minerals
Their themes and associated remedies

Plants
Their themes and associated remedies

Animals
Their themes and associated remedies

Massimo doesn't strictly adhere to the natural orders; when he found a remedy that looked very similar to a snake, such as Zinc-p or Cimic, he would include it in the "reptile-like" group.

Passages
We all travel through transitions in our lives; this map highlights those remedies that get stuck at a point

Pain of the Corpus
When pain predominates the case it always represents fundamental themes

Massimo Mangialavori
